# Google Cloud Registration

Presented By :

Amrit Choudhary

GC: Registration

https://console.cloud.google.com/getting-started

➤ Click on activate or just sign in to gmail account

Enable Billing:

To create billing account follow the below steps:

Sign in to the Manage billing accounts page in the Google Cloud Console.
[Sign in to Manage billing accounts](#)

➢ Click **Create account**.

➢ Enter the **Name** of the Cloud Billing account.

➢ Depending on your configuration, you will also need to select one of the following:

  ➢ If you see an **Organization** drop-down, then you must also select an Organization before you can continue.

  ➢ If you are prompted to select a **Country**, select the country that corresponds with your billing mailing address. The country you select will affect the payment options available in the next step. The currency for your Cloud Billing account is automatically assigned based on the country you select.

➢ Click **Continue**.

➢ Choose the [Google payments profile](#) that will be associated with this Cloud Billing account. A payments profile is shared and used across all Google products (such as G Suite, Google Cloud, Google Fi, and more).

➢ **Important note :** Select Business if this is for a business, organization, partnership, or educational institution. Otherwise, select Individual.

➢ When you are done setting all the options and details, click Submit and enable billing.

➢ By default, the person who creates the Cloud Billing account is a [Billing Account Administrator](#) for the Cloud Billing account.

➢ A Cloud Billing account can be linked to one or more projects.

  Project usage is charged to the linked Cloud Billing account.
